Subject: RE: Superfund Public Activities for Patrick Davis
Attachments: Public Facing events thru 2017

Hi, Libby:

For the sites managed in my group, Robert coordinates with the RPMs to identify upcoming Superfund public activities (see attached email), and enter that information into EPA's Office of Public Affairs events tracker Sharepoint site:

<https://usepa.sharepoint.com/sites/OA/publicaffairs/SitePages/Home.aspx?e=1%3A0273daba56cc44db938322dfc9d502a6>

Robert worked with OCPI to identify where this information should go. I do not have access to this site. I viewed it with Robert, however, and the Montana public events are recorded. I assume that you, Rich, and Andrew all have access to this Sharepoint site (or can request access) and can see all of the upcoming (and past) public events for Region 8. I understood that OCPI entered information from its own events tracker into this database, too. I saw other Region 8 events listed in the OPA Sharepoint site. Robert has access to enter directly Superfund public activities in Montana. Please let me know if you have any questions or if you require additional information regarding any of the planned activities.

Thank you,

Joe

Subject: Superfund Public Activities for Patrick Davis
Importance: High

Hello Everyone,

Patrick Davis has asked that I share any current and upcoming Superfund public activities with him on a weekly basis. Before I send any information I will first either email you all the information and/or cover it in the weekly EPR-LT meeting. Below is the current list of activities that I will be sending to Patrick on Monday. These weekly emails will include Superfund specific planned public outreach such as public meetings, CAG/TAG meetings, site tours, Congressional calls, local government outreach, Superfund site specific media inquiries, etc. This list **does not include** technical team meetings that may be taking place with the State, PRP's/ENF or other Federal Agencies.

David, Laura and Victor – I would suggest we include any local official meetings that the OSC's or SAMS may be participating in when out in the field. Those types of meetings are often public meetings and could include press. I leave this decision to you all. Let me know if you want to add anything.

Joe, you will either need to coordinate directly with Patrick or send me information as to any upcoming public outreach the Montana office has planned at Superfund sites since Robert works for you. Let me know how you want to proceed.

If any of you are aware of any activities that are not reflected on the information below let me know by Monday am.

Upcoming Site Activity

There are no Superfund public activities planned for Thanksgiving week.

30-Day Projected Public Meetings, Media Interest/Interviews, and/or Congressional Briefings

Date	Site	Activity/Description
11/30/17	Lowry Landfill	<ul style="list-style-type: none">• CAG Meeting
